STATSPEC

2. [REDACTED] Met with Miss Judy Morrison, Senate Foreign Relations Committee staff, who returned to me the [REDACTED] for inclusion in the transcript of the Director's testimony of 29 March.

25X1

3. [REDACTED] Met with Mr. Dan Boone, House Science and Astronautics Committee staff, who told me that Chairman Downing, of the NASA Oversight Subcommittee, is considering hearings some time next month to take testimony from NASA and DOD on the space shuttle. Mr. Boone indicated that Chairman Downing may well request an Agency briefing for the Subcommittee which would include the Chairman of the full Committee and chairmen of the other Subcommittees on the Soviet and Chinese space programs. Mr. Boone indicated this was merely an alert and that he would keep me advised as the matter develops.

25X1

4. [REDACTED] Met with Mr. Garner J. Cline, Immigration and Naturalization Subcommittee staff, House Judiciary Committee, who told me that the Committee will handle the matter of contacting the official objectors concerning the Jucu Bill, H. R. 3929. I thanked Mr. Cline for the advice.

SECRET

MEMORANDUM FOR THE RECORD

ILLEGIB

SUBJECT: Followup Items - DCI Briefing 29 March 1971

✓ 1. After the Director's briefing of the Senate Foreign Relations Subcommittee on Arms Control, International Law and Organization, I met with Mr. Jim Lowenstein, Committee staff, concerning requests made by Senator Case (R., N. J.) and Senator Fulbright (D., Ark.). He said Senator Case's request for a paper from the Director that could be circulated to the Committee members regarding the Khrushchev statement quoted by Mr. Helms "we will bury you" stems from Committee belief which was set forth in a floor statement by Senator Fulbright some years ago that the statement as popularly quoted was never made by Mr. Khrushchev. Senator Case believes the Director to be in error in using the quote.

✓ 2. With regard to the request for a detailed study of the Soviet military and economic assistance programs, Mr. Lowenstein told me that the paper will be used as a basis for follow-on country by country and program by program review with the Department of State and the military of American programs. Although the Committee would like to have the study in unclassified form, if at all possible, detail and completeness is of greater importance to the Committee than the bobtailing that might be required in a completely unclassified paper. Mr. Lowenstein asked if I could give him a reading in the next few days when the paper might be expected and what the necessary classification might be.
